

To be able to get hands on learning every day at work and college!

I can earn money whilst learning which I can't do at college or university.

To learn in an academic manner whilst simultaneously gaining real world experience. The ability to gain qualifications without ending up in debt.

What made you decide to enrol onto an apprenticeship with Jungheinrich?

I chose to do an apprenticeship because I felt like it fit me the best. I could earn a qualification, learn off someone who does the job already and earn a wage. This ticked all the boxes for me.

I've always had a passion for engineering, and there was availability of the position at Jungheinrich.

Essential experience in engineering alongside working for a well-established company to gain a qualification.

The apprenticeship has been diverse and rewarding.

So far, my experience has been a positive one in terms of learning new things and discovering my potential.

My apprenticeship so far has been very informative and exciting.

In a short sentence, can you describe your overall apprenticeship journey with Jungheinrich so far?

A progressive, eye-opening experience.

I have enjoyed it very much. I have met some great people along the way and travelled the country whilst working.

challenging at times but very enjoyable!

To work hard and show plenty of enthusiasm, If you're interested then mentors/tutors will find a lot of joy in teaching you.

Absolutely go for it! You will not regret it; it is the best decision I've ever made.

Be open minded to learning new things and always ask questions.

My advice would be, go for it. Excellent opportunity to earn while you learn. I'd recommend to anybody playing with the thought.

What advice would you give to someone considering applying for an apprenticeship?

Jump on the opportunity as soon as possible. You make lifelong friends; It is the best way to gain knowledge in what you are doing, and you also earn a wage!

It's a good alternative depending on subject area to traditional A levels & University degrees. Look at what your ideal working day would be and your realistic potential earnings upon completing your qualifications. Balance that out with the cost of education, you might find that an apprenticeship is the best option for you.

Go for one! If it's anything like mine, you'll meet great people, earn a wage and have a laugh while doing it.
