Connect intralogistics.
This is your chance.

Shape the future as Product Owner m/f/x

Have you always wanted to make a difference? Help us create the future of intralogistics with innovative solutions based on a modern IoT Data & Services Platform!

In a nice, modern office environment and agile setting, our teams of experts work on products, services and platforms to make the management of intralogistics fleets for our international customers more reliable, safer and more efficient. We offer start-up flair and remote-first-setup in combination with all the advantages of a well-known German multinational company.To foster our growth at our development site in Hamburg and Madrid we are looking for a (Senior) Product Owner / (Senior) Product Manager (m/f) in a permanent, full-time position

Product Owner Innovative IoT Solutions (m/f/x)
Location Spain (Madrid)

Set things in motion.

- Define product vision & strategy in collaboration with relevant stakeholders based on deep understanding of market, customers and trends.
- Own and write clear product specifications & user stories and align with the team to support a lean and agile product & platform development.
- Manage and prioritise the backlog based on business value and monitor workload, progress and outcome.
- You are comfortable with multiple stakeholders and sources of feature requests, while keeping the products consistent, coherent and focused on great user experience.
- Work with cross-functional teams and various stakeholders, including analytics, design/user experience, engineering, and user enablement.
- For market facing offerings, design is not a task but a key differentiator to you.
- Alignment, commitment and communication around your release plans and roadmap are fundamental.
- You see it as part of your role to stay on top of industry innovations & trends and share your insights and learning with your colleagues.

Use your skills.
.
- Degree (BA/BS) in Business Administration or Computer Science or related fields or equivalent practical experience.
- 5+ years of experience as Product Owner/Manager of Digital Products, Platforms and E2E delivery, ideally in a B2B context
- Detailed knowledge and practical experience with agile methodologies
- Excellent customer experience intuition; demonstrated success in creating innovative and user-friendly software applications and customer-facing features
- You bring excellent communication skills with the ability to engage, influence and inspire partners and stakeholders to drive collaboration.
- Technical fluency; you possess ability to understand and discuss technical concepts, schedule trade-offs and new opportunities with technical team members
- Experience using data and metrics to back up assumptions and assertions of business value.

Gain more.

- Attractive salary dependent on your qualifications and experience
- Friendly and informal atmosphere in a company that cares about an excellent team spirit
- Challenging, diverse and independent work in an innovative and creative environment
- Flexible, family-friendly time schedule and home office possibility
- Company-internal benefits
- Professional and personal training opportunities to advance your career
