

# Jungheinrich FMS

The digital solution to optimise your fleet management.

# Intuitive fleet management for maximum overview.

Safe. Efficient. Customisable.

**Would you like to increase safety for your employees?**

**Do you know the precise utilisation figures for your industrial trucks?**

**Are you interested in obtaining a comprehensive cost analysis for your fleet?**

Then choose the Jungheinrich fleet management system (FMS): the digital solution for efficient, cross-site management of your truck fleet. The web-based tool combines truck data and commercial information in a single system and provides comprehensive analyses to deliver a solid basis for making important business decisions.

Choose the right solution for you from the various packages available and:

- ✓ **Increase safety for both personnel and machines.**
- ✓ **Boost the utilisation of your fleet**
- ✓ **Reduce operating costs**

# Why should you opt for the Jungheinrich FMS?

## FEWER ACCIDENTS AND ENHANCED SAFETY IN YOUR WAREHOUSE.

With the Jungheinrich FMS, you avoid high follow-on costs that can arise as a result of impact or accidental damage due to constantly changing or inexperienced operators.

**YOU BENEFIT FROM:**  
**Maximum safety for personnel and machines.**

## PROFESSIONAL FLEET MANAGEMENT.

The Jungheinrich FMS saves you time when managing your fleet and provides you with access to customisable key data that you can use when making investment decisions, for example.

**YOU BENEFIT FROM:**  
**Efficient working and faster decision making.**

## LOWER COSTS AND HIGHER PRODUCTIVITY.

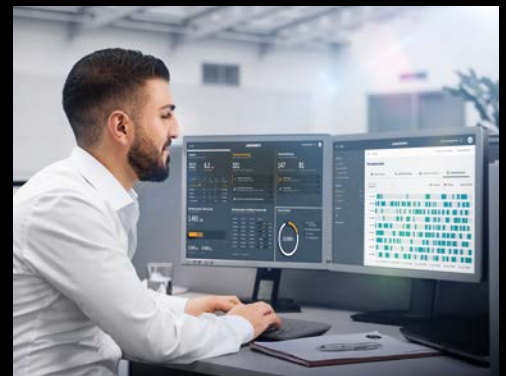

The Jungheinrich FMS offers you greater transparency in your processes and a constant overview of truck maintenance condition and compliance with agreed operating hours.

**YOU BENEFIT FROM:**  
**Higher productivity at lower cost.**

## Maintain an overview with Jungheinrich FMS.

Increase internal safety through the assignment of access rights and notifications in the case of impact events. Comprehensive cost and usage analyses allow you to identify savings potential and boost the productivity and utilisation of your trucks. Take the opportunity now to customise a future-oriented IoT platform with optional data interface.

Your Jungheinrich contact person will be happy to advise you about the most efficient fleet management solution for your company.

Certified information security ISO/IEC 27001:  
The utmost safety standards are applied in  
the development and operation of our digital  
solutions in order to protect your information.

**ISO 9001**  
**ISO 14001**

The German production facilities in Norderstedt,  
Moosburg and Landsberg are certified.
