

Connect intralogistics. This is your chance.

Shape the future as Senior Software Developer

Without Jungheinrich your shopping cart would probably remain empty. And it does not stop there! Every day our devices transport millions of goods in logistics centres all over the world. At Jungheinrich Digital Solutions S.L. we develop intelligent warehouse management solutions and process-reliable warehouse automation for our customers – and we are looking forward to receiving your application.

Senior Front-end Software Developer m/f/x Location Spain (Madrid)

Set things in motion.

- As a member of the Development team, you will work on our Fleet Management solution, developing new features, maintenance and bugs fixing.
- Assistance in drawing up concepts for product development of our systems.
- Assistance in co-creation developments as well as adjustments of the product core.
- You will be in charge of the front-end part, but involved the end-to-end development cycle: frontend, backend, CI/CD, infrastructure and cloud and testing.

Use your skills.

- +6 years' experience programming as front- end developer.
- Experience with React-last version (unit testing, integrations testing, E2E testing) or with Vue.Js or Angular.
- Experience programming in Serverless microservices architecture.
- Experience working in AWS environments and with PostgreSQL.
- Desirable knowledge of Java/Python programming or willing to learn them.
- Good communication skills in English (B2) and Spanish; desirable good level of German.
- Team oriented, collaborative, but also proactive and independent.

Gain more.

- Attractive salary dependent on your qualifications and experience
- Friendly and informal atmosphere in a company that cares about an excellent team spirit
- Challenging, independent work in an innovative and creative environment
- Company-internal benefits
- Professional and personal training opportunities to advance your career
