

## Connect intralogistics.

This is your chance.

Shape the future as a SAP Integration Consultant (SSFF, HCM..) m/f/x

Without Jungheinrich your shopping cart would probably remain empty. And it does not stop there! Every day our devices transport millions of goods in logistics centres all over the world. At Jungheinrich Digital Solutions S.L. we develop intelligent warehouse management solutions and process-reliable warehouse automation for our customers – and we are looking forward to receiving your application.

## SAP Integration Consultant (SSFF, HCM..) m/f/x Location Spain (Madrid)

### Set things in motion.

- Responsible for the coordination of interface topics around HR IT systems (SAP SuccessFactors, SAP HCM..) and their connections to local & global systems, Payroll Systems and Middleware (SAP CI + Azure IS)
- Manage and coordinate integration projects and work packages through various phases - from gathering and analyzing business requirements to go-live and post-implementation support in coordination with team leader
- Create and maintain end-to-end functional and technical designs for interfaces
- Alignments with the architecture teams and other IT projects
- Development of IT integration solutions for the HR business units.
- Coordination with other systems and their stakeholders (e.g. Identity & Access Management, Systems, ERP systems, payroll systems, SAP BW)
- Work with project managers and external consultants to ensure successful on-time completion of integrations deliverables
- Responsible/lead for the elaboration of the transition and target architecture in terms of interfaces in collaboration with implementation partners and IT architects (reviewing/creating documentation etc.)
- Development and derivation of test specifications from the integration requirements
- Guide less experienced colleagues and actively share knowledge in SuccessFactors Integration tools, API's, middleware configuration etc.
- Plan, drive and own related work packages and provide regular status updates

### Use your skills.

- Completed university studies (master/diploma/promotion) in computer science, electrical engineering or a comparable course of education.
- At least 5 years of professional experience as IT integration and cloud architect, ideally with the technologies/systems Azure Integration Services and SAP Cloud Integration (SCI/ CPI).
- Experience valuable in databases, IAM, XML, SAP SuccessFactors, SAP ERP HCM), payroll integrations and HR Processes.
- Good knowledge of SAP SuccessFactors and SAP ERP HCM data and HR processes
- knowledge in IT integration and cloud infrastructure, know-how in IT project management, experience in presentations + international projects
- Team player, strong communication skills, goal-oriented, self-reliant
- Very good written and spoken English, ideally German

### Gain more.

- Attractive salary dependent on your qualifications and experience
- Friendly and informal atmosphere in a company that cares about an excellent team spirit
- Challenging, independent work in an innovative and creative environment
- Company-internal benefits
- Professional and personal training opportunities to advance your career
