This is your chance.

Shape the future as a Data Scientist m/f/x

Without Jungheinrich your shopping cart would probably remain empty. And it does not stop there! Every day our devices transport millions of goods in logistics centres all over the world. At Jungheinrich Digital Solutions S.L. we develop intelligent warehouse management solutions and process-reliable warehouse automation for our customers – and we are looking forward to receiving your application.

Data Scientist m/f/x

Location Spain (Madrid)

Set things in motion.

- Collaborate with cross-functional teams to identify and understand key finance use cases that can benefit from data analysis (from proof-of-concept to implementation support)
- Develop and implement predictive models and machine learning algorithms to support financial decision-making
- Identifying optimization potential in internal business processes and deriving recommendations for action, as well as use and business cases
- Build end-to-end analytical solutions supported by data engineers and provide strategic recommendations based on data analysis to optimize financial operations, risk management, and investment strategies
- Work closely with data engineers to ensure the availability and quality of relevant data and other colleagues from various Teams (finance, controlling, IT and BI) within the international Jungheinrich organization
- Communicate the results of your work to various stakeholders

Use your skills.

- University/Bachelors' Degree in engineering, computer science, statistics, econometrics, or a related field.
- 3-5+ years of experience as Data Scientist in consulting firms or corporates.
- Fluency in Python and its data science, AI, and visualization libraries.
- Experience working with big data analytics solutions, like Azure Databricks, or are eager to learn it.
- Experience in using frontend visualization tools, like SAP Analytics Cloud, PowerBI, Databricks
- Full Proficiency C1 in English; German valuable.
- Self-starter, Analytical problem solver, team worker
- You communicate confidently at all hierarchical

Gain more.

- Attractive salary dependent on your qualifications and experience
- Friendly and informal atmosphere in a company that cares about an excellent team spirit
- Challenging, independent work in an innovative and creative environment
- Company-internal benefits
- Professional and personal training opportunities to advance your career
