

Interim report as of 30 June 2024

Dr Lars Brzoska
(Chairman of the Board of Management)

Dr Volker Hues
(Member of the Board of Management, Finance)

Hamburg, 9 August 2024

H1 2024 at a glance

Overall resilient business development in ongoing difficult market conditions

Incoming orders stable in comparison with previous year at €2,665 million

Revenue at previous year's level at €2,622 million

EBIT at €215 million with resilient **EBIT ROS** of 8.2%

Free cash flow is strong at €172 million

Forecast for 2024 confirmed

Incoming orders stable in the first half of 2024

Incoming orders
in € million

The decline in new business was almost fully offset by growth in after-sales services against the backdrop of the difficult market conditions

Revenue at previous year's level

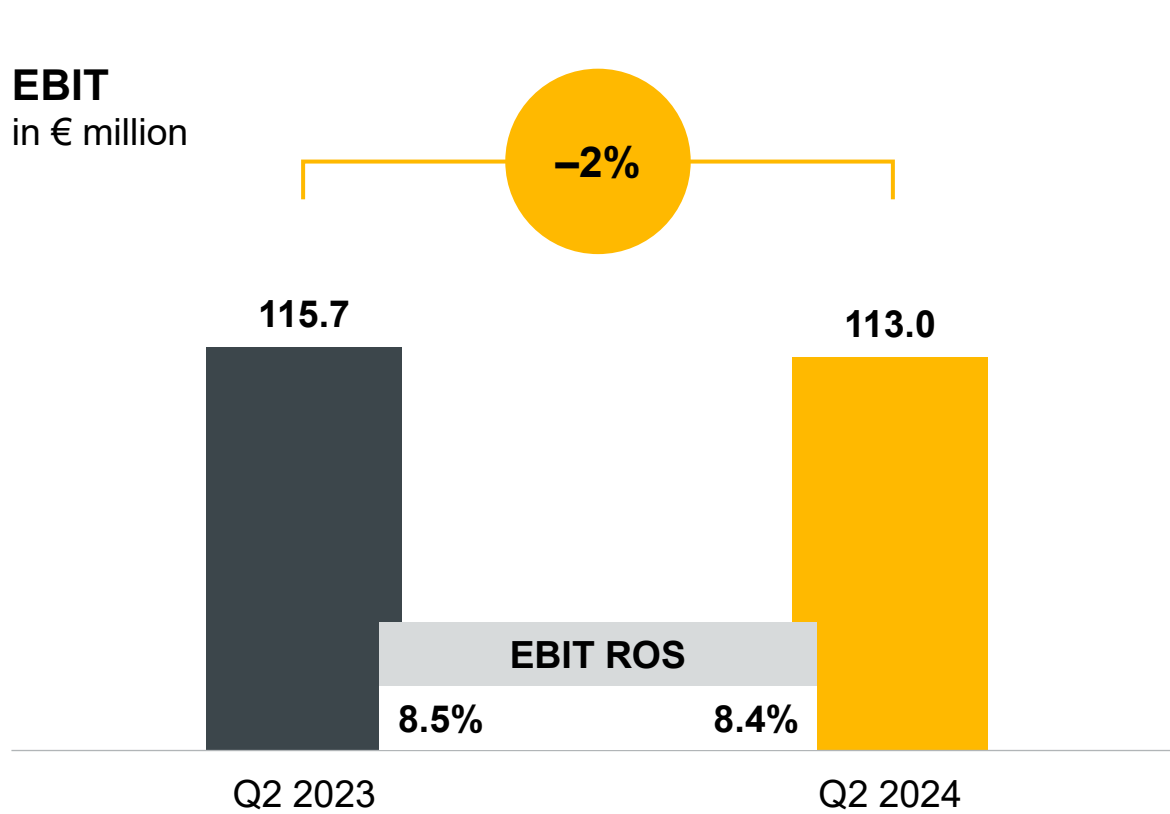

Revenue
in € million

Growth in after-sales services and positive developments in the financial services business almost fully offset the decline in revenue from new business

Resilient EBIT ROS

EBIT
in € million

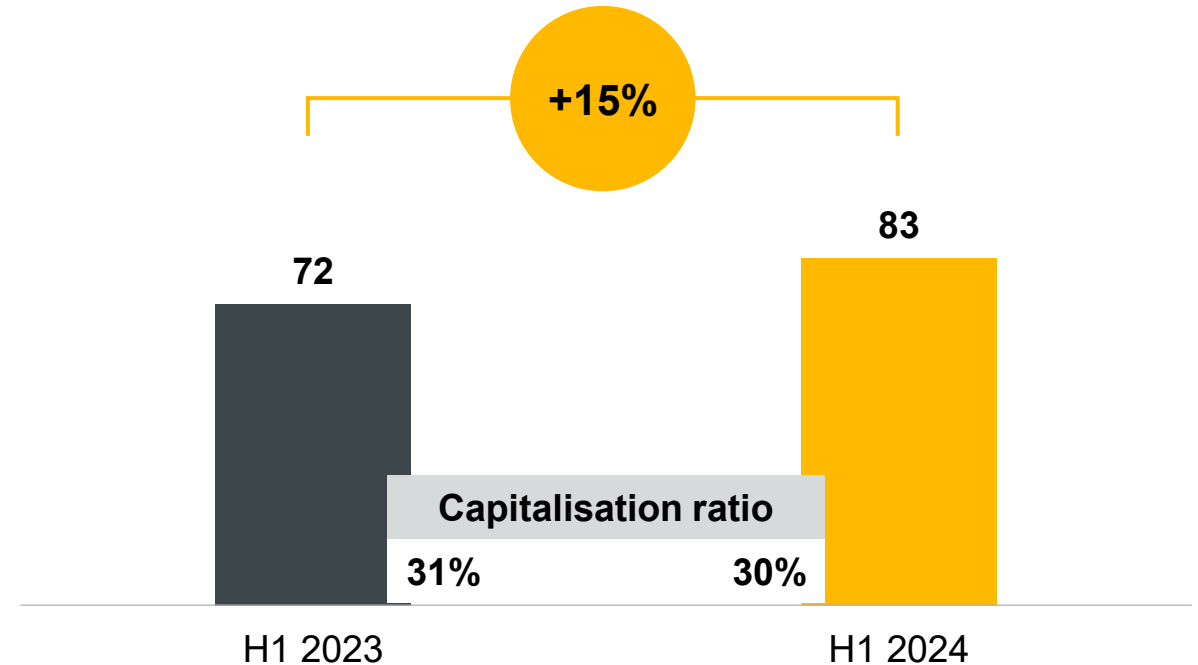

EBIT benefits from measures introduced in the previous year to increase earnings – increased costs due to effects from collective agreements and the increase in personnel carried out in the previous year were partially offset

Capital expenditure below previous year as expected, development services significantly expanded

Capital expenditure¹
in € million

Research and development expenditure
in € million

Partial instalment for plant in Chomutov included in previous year

Significant increase due to additional development services from Magazino for digital products

¹ Property, plant and equipment and intangible assets not including capitalised development expenditure and right-of-use assets

Significant improvement of free cash flow

Cash flow from operating activities
in € million

Cash flow from investing activities
in € million

Free cash flow
in € million

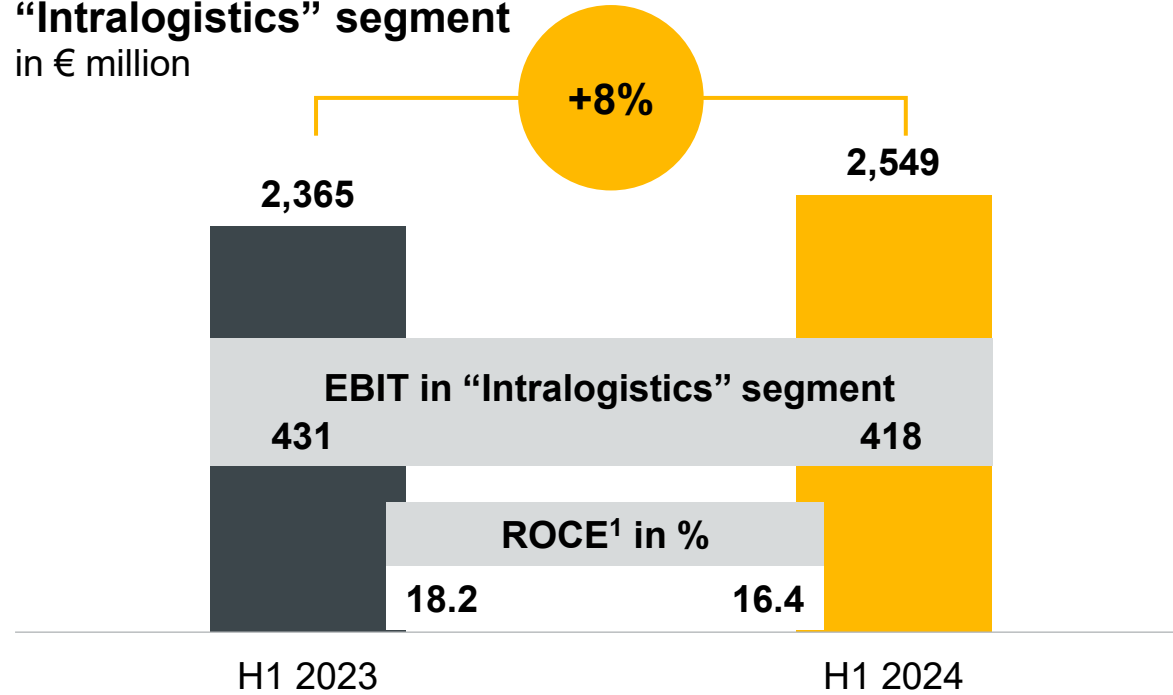

Further improvement in working capital management with positive impact on cash flow

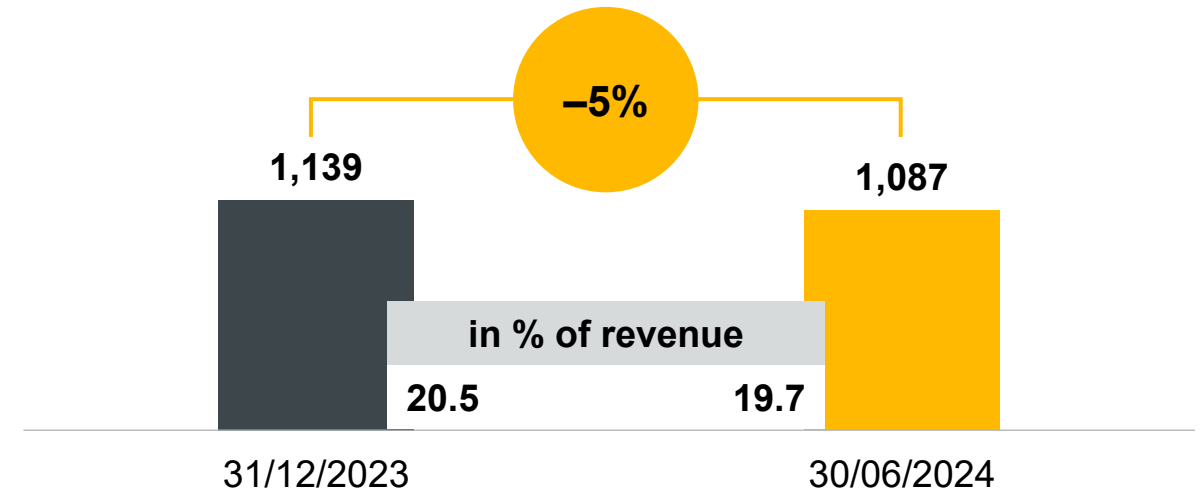

Cash flow from investing activities in the previous year contains €307 million from the purchase price payments for Storage Solutions

Increased capital employed due to acquisition activities, Working capital ratio improved

Average capital employed in “Intralogistics” segment
in € million

Working capital Group
in € million

Increase in average capital employed due to the full-year recognition of goodwill for Storage Solutions and Magazino

Optimised receivables management leads to improvement of working capital ratio

¹ EBIT (annualised) for the Intralogistics segment in % of the segment’s average capital employed.

Number of employees decreases especially in Germany

Group employees
in FTE¹

Decrease results from a cautious personnel policy against the backdrop of the difficult market conditions

¹ Full-time equivalents (FTE), including trainees and apprentices, excluding temporary workers.

Disclaimer

The explanations in this presentation are partially forward-looking statements that are based on the company management's current expectations, assumptions and assessments for future developments. Such statements are subject to risks and uncertainty that are largely beyond the company's control. This includes changes in the overall economic situation, such as impacts from geopolitical conflicts, natural catastrophes, pandemics and similar force majeure events, debt issues, within the intralogistics sector, in materials supply, the availability and price development of energy and raw materials, demand in important

markets, developments in competition and regulatory frameworks and regulations, exchange and interest rates and the outcome of pending or future legal proceedings. Should these or other uncertainties or unknown factors apply or the assumptions on which these statements are based proved false, actual results may deviate significantly from the results stated or implied. No responsibility is therefore taken for forward-looking statements. Without prejudice to existing capital market obligations, there is no intention to accept any obligation to update forward-looking statements.
