

Service for trucks

Jungheinrich charger service

Always charged and ready for use.

JUNGHEINRICH

Keeps your operations running 24/7.

Our professional and reliable charger service verifies and ensures the functionality of your chargers, so that your batteries are not damaged during charging cycles and always remain fully operational at all times. Even a premium battery can only perform at its best when used with a fully functioning charger.

As well as conducting an external and internal inspection of all components, we also check all electrical lines for damage in order to prevent accidents and ensure smooth operation of the charger.

The charger service ensures that you comply with all relevant regulations and inspection intervals, making a significant contribution to maintaining the performance of your systems. You will also benefit from long-term investment security for your trucks, batteries and chargers.

Service and Support all from one provider

Service and support all from a single source.

Worldwide standards in service quality, short distances to the customer and Jungheinrich employees who do everything they can to keep your truck fleet running smoothly, leaving you free to concentrate fully on your core business.

Your Jungheinrich charger service for **maximum performance.**

Safety

Best conditions for working safely.

Recurring checks are essential when it comes to maintaining the functionality and safety of your chargers. With our service for battery chargers, you will always be on the safe side.

Charger inspection as per German Social Accident Insurance regulation:

- Functional check and visual inspection of the chargers with approved and tested measuring instruments.
- Timely compliance with all regulations.

Prevention of electrical accidents:

- Establishing maximum safety for the operator with regular maintenance and checks.
- Inspection of all electrical lines for damage in order to prevent accidents.

Efficiency

Maximum performance with the most efficient service.

Kill two birds with one stone: our charger service not only looks after the safety of your systems, but also carries out all regular care and maintenance.

Safety inspection:

- Compliance with accident prevention regulations as well as the employers' liability insurance association regulations.
- Monitoring of and compliance with inspection intervals along with all associated administrative tasks.

Care and maintenance:

- Inspecting and insuring the functionality of your chargers.
- Visual inspections and comprehensive damage checks.

Reliable

A service as versatile as your business.

If you are experiencing technical problems or have a faulty charger, we will repair your systems and ensure that your trucks always deliver peak performance.

Increasing operational readiness:

- Maintaining the long-term readiness of your chargers with maximum efficiency.
- Regular functional checks and identification of hidden faults and wear.

Planning security:

- Fixed maintenance dates according to individual agreement.
- Long-term investment security for trucks, batteries and chargers.
