**Jungheinrich original wheels and rollers.**

For the optimum performance of your trucks.

**JUNGHEINRICH**

# Maximum efficiency with the original.

## Wheels and rollers for all trucks.

Our high-quality wheels and rollers are used to transport your goods quickly and safely from A to B. Using the correct wheels and rollers also ensures that your transport equipment always achieves maximum throughput.

Whether when steering or braking abruptly, travelling at top speed or under maximum load – it is of paramount importance that your wheels and rollers always function perfectly. Our extensive range includes a wide selection of load, drive and support wheels as well as steering and fixed rollers made from various different materials to suit your specific requirements.

Where necessary, our service engineers can be on-site quickly to handle the installation work, keeping downtime to an absolute minimum.

### Service and Support all from one provider

#### Service and support all from a single source.

Worldwide standards in service quality, short distances to the customer and Jungheinrich employees who do everything they can to keep your truck fleet running smoothly, leaving you free to concentrate fully on your core business.
