GREAT USED EQUIPMENT DEALS

JUNGHEINRICH

Your advantages.

A Jungheinrich used forklift gives you an economical alternative to buying new, without losing the reassurance of working with the original manufacturer. With JUNGSTARS Economy and premium remanufactured JUNGSTARS available, you can choose the right balance of cost, preparation level and performance for your operation.

Great Value: Used forklifts offer a cost-effective way to add capacity, replace ageing equipment or meet changing demand.

Great variety: We have the right solution for your individual needs. Around 60,000 used trucks in more than 600 variations are ready and available.

Fast delivery: Many used forklifts are available from current stock, helping you respond quickly when your operation needs extra handling capacity. Availability and delivery times vary by truck.

Reduced maintenance costs: Premium remanufactured JUNGSTARS are industrially refurbished, with key components checked, refurbished or replaced where required. This helps reduce the risk of unexpected repair or replacement costs.

Quick anytime nationwide support: Jungheinrich has one of the industry's most comprehensive nationwide service networks at your disposal.

Always taken care of: We guarantee the availability of genuine spare parts for the entire lifecycle of your truck.

Finance options: Jungheinrich offers attractive financing options, so you can choose a used truck solution that fits your budget and investment plans.

Expert service: Extensive service offerings and more than 30 years experience in refurbishing forklifts.

Technical safety: Our safety features always meet the latest EU directives and safety regulations. There is no need for any modifications or supplementary additions.

For tough applications: Where higher preparation standards are required, JUNGSTARS with premium remanufacturing offer a robust used truck option for demanding warehouse and materials handling tasks.

Environmentally friendly: Compared to new truck production, our refurbishment process saves 80% of CO₂. We also ensure environmentally-friendly disposal of any operating fluids in the process.
