	Starter Bundle	Finance Bundle	Safety Bundle	Safety & Performance Bundle	Energy Bundle
Basic personal information	x	x	x	x	x
Communication data	x	x	x	x	x
Log data	x	x	x	x	x
Vehicle user data	x		x	x	x
Vehicle data	x		x	x	x
Medical data			(x)*	(x)*	

The above-mentioned data categories generally include the following data, which can be provided by the Customer and processed by Jungheinrich for the provision of services:

- Basic personal information (e.g. first name, middle initial, surname, signature, personnel number)
- Communication data (e.g. login e-mail address, alternative e-mail address, address, telephone number)
- Log data (e.g. logging of log-on and log-off times as well as entry and modification times, IP address, configuration changes in the management portal, date and time of a driver's log-on and log-off at a specific vehicle including the final status of the vehicle, multilogin)
- Vehicle user data (e.g. first name, surname, transponder ID, vehicle permit class, driving licence number, issue date, expiry date, driver's experience level, login information, access ID, PIN, external ID, authorisation, hourly rate, certification expiry, licence expiry date, group assignment, driving times, shock messages of the vehicle they are operating)
- Vehicle data (e.g. vehicle ID, vehicle segment, speed, lifting events (lifting and lowering), battery level, vehicle type, missions, shocks, total number of shocks during the mission, completed driver checklists, result of the departure check on the condition of the vehicle)
- Medical data (* Pre-Op Check module: by default, no checklists are provided by the system, so no processing of medical data is provided. Customers can create and use customised checklists at their own discretion. The collection and processing of medical data cannot be excluded and is therefore the responsibility of the Customer in accordance with Clause 1.8 of the Agreement. For further information, please refer to Appendix 4 Annex A of the Agreement).
