# Small parts storage static

## Shelving

JUNGHEINRICH

# Modular racking

## with flexible options.

**For direct access and lightning-fast conversion and expansion.**

If you need to store lots of different small parts, modular racking is the optimum solution. The popular, adaptable all-rounder is used in many industries, especially where access times need to be kept short for manual order picking. The comprehensive range of accessories and the simple components enable tailored adaptation to your storage space and your utilisation requirements. Modular racking is available as boltless racking with great flexibility in the height adjustment of shelving.

JUNGHEINRICH RACKING COMPETENCE

### Racking expertise since 1958

Racking is the backbone of your warehouse. We develop tailored solutions for every industry and every demand in order to meet the utmost quality requirements and to grow along with your needs. As a system provider, we are your single point of contact from planning right through to after sales.

JUNGHEINRICH RACKING INSPECTION

### Certified quality. Guaranteed

Even when your racking solution is up and running, we continue to ensure quality and safety levels in the warehouse. At your request, one of our 120 certified inspectors will visit your site to perform the annual inspection stipulated by DIN EN 15635. If something is amiss, the original spare parts will be delivered right away.

## All benefits at a glance

- Quick access to any item
- Boltless system for easy expansion
- Wide range of accessories for high adaptation capability
- Easy to assemble
- Low investment costs

# Your Jungheinrich racking

## for maximum customer benefits.

### Flexibility

Racking as individual as your business.

Modular racking is suitable for a large number of goods, applications and industries. The components available and the comprehensive range of accessories allow the racking system to be customised to adapt to changes in space and utilisation requirements.

**Modular functionality**

- Flexible adjustment of shelving height at 25 mm increments.
- Add-on bays for quick expansion.
- Variable adjustment to suit goods, e.g. via compartment dividers or recesses for bulk goods.
- Can be equipped to form fully encased cabinets with doors and drawers.

**Individual sector solutions**

- Advice from experts with sound sector experience.
- Tailored solutions for various sectors, e.g. grocery sector, wholesale, production industry and many more.

### Efficiency

Everything you need for optimum material flow.

Modular high-bay racking allows full use of a room's height. This means greater capacity with the same footprint.

**Efficient working**

- Quick and easy access to all items.
- Perfect organisation and arrangement of items.

**High utilisation of space**

- Implementation as high-bay racking for efficient use of a room's height.

### Safety

Best conditions for working safely.

Our preventive services and the appropriate racking accessories ensure that people, trucks and racks all stay safe – in every situation. So your processes can keep flowing and your capital goods remain protected.

**Conformity with standards**

- Modular racking is designed according to applicable standards.

**Safe setup**

- Simple boltless assembly ensures safe setup, even by inexperienced personnel.
