

Small parts storage

Mobile shelving

JUNGHEINRICH

Mobile shelving

storage solution.

Perfect for items with low access frequency.

Be it conventional archive racking for files / boxes or a goods warehouse for non-palleted items: whatever you do not need continuous access to can be conveniently stored high up in our movable modular racking system. The principle is very simple: the aisle is always wherever work is going on. And only there. The racking rows can move apart at the required point to provide access to the required item. Ideal for saving space yet allowing quick access. The user-friendly controls are located directly at the required rack.

JUNGHEINRICH
RACKING COMPETENCE

Racking expertise since 1958

Racking is the backbone of your warehouse. We develop tailored solutions for every industry and every demand in order to meet the utmost quality requirements and to grow along with your needs. As a system provider, we are your single point of contact from planning right through to after sales.

JUNGHEINRICH
RACKING INSPECTION

Certified quality. Guaranteed

Even when your racking solution is up and running, we continue to ensure quality and safety levels in the warehouse. At your request, one of our 120 certified inspectors will visit your site to perform the annual inspection stipulated by DIN EN 15635. If something is amiss, the original spare parts will be delivered right away.

All benefits at a glance

- Efficient utilisation of space through reduction in racking aisles
- User-friendly controls
- Variable adaptation to goods with a comprehensive range of accessories
- Up to 85 % more storage volume than stationary racking
- Access to each individual position with high utilisation of space

The German production facilities in Norderstedt, Moosburg and Landsberg are certified as well as our Genuine Parts Center in Kaltenkirchen.
