

Electric pedestrian stacker with support arm lift

EJD 118i (2021)

Lift height: 1000-1520 mm / Load capacity: 1800 kg

LI-ION technology

JUNGHEINRICH

Powerful all-rounder

for continuous daily operation.

For maximum manoeuvrability when order picking.

Low service weight and high manoeuvrability make our compact and versatile EJD 118i electric pedestrian stacker the perfect helper for space-saving use on HGVs or double-decker transport on ramps and uneven floors.

The EJD 118i promises maximum efficiency with its future-proof lithium-ion battery with integrated charging technology for the utmost flexibility. The ProTracLink torsion bar ensures stable handling, while the standard proportional hydraulics guarantee controlled lifting and lowering.

The truck's narrow mono mast ensures optimal all-round visibility at all times, for example when operating in shops with public traffic. Reflectors for better visibility as well as a long tiller with sufficient room between the truck and the operator to offer a high level of safety during every application.

No need to worry. No compromises

The Jungheinrich Li-ion Guarantee Plus provides you with a long-term performance promise of up to 5 years on our high-quality lithium-ion batteries, so that you can focus fully on your tasks without worry.

Use your data to your advantage.

Utilise the data from your trucks to save time, energy and costs and increase efficiency. Our Telematics box (ex works) provides you with a free fleet management starter package that can be flexibly expanded with various hardware and software components.

Warranty conditions

* In accordance with our warranty terms - see website for details.

All benefits at a glance

- Flexible universal stackers for a wide range of applications.
- Clever combination of the advantages offered by stacker trucks and pallet trucks.
- Innovative lithium-ion battery with integrated charging technology.
- Stable handling paired with high level of manoeuvrability.
- Minimised noise development thanks to silentDRIVE.

Your Jungheinrich stacker truck

for maximum customer benefits

Efficiency

Maximum performance with the most efficient trucks.

The high degree of flexibility provided by our lithium-ion batteries and the versatile pallet handling skills of the EJD 118i make the truck a reliable all-rounder for the varied daily routine of a warehouse.

Efficient pallet handling

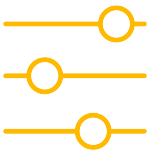

- Precise and gentle lifting and lowering of the load by standard proportional hydraulics.
- Reliable transport of double-decker pallets on ramps and uneven floors.
- Maximum manoeuvrability and agility even in confined warehouse areas.

Future-oriented lithium-ion technology

- Lithium-ion technology integrated as standard for maximum availability.
- Choice between two batteries: 40-Ah lithium-ion battery and 110-Ah lithium-ion battery.

Quick and safe charging

- Easy charging at any 230-V mains socket thanks to built-in charger.

Individuality

A forklift truck as individual as your business.

Are you looking for a genuine all-round talent for your company? Whether it is double-decker operation, stacking and removal, use on board HGVs or order picking you need, the EJD 118i can adapt to any application scenario in a flash thanks to numerous additional options.

Flexible application

- Flexible electric pedestrian stacker thanks to integrated support arm lift.
- As a high lift truck, the perfect choice for light stacking tasks.
- Ideal in pallet truck applications over short transport distances with loads up to 2,000 kg.
- As a double-decker truck, it is twice as productive, transporting two stacked pallets simultaneously.

Intelligent assistance systems

- silentDRIVE for quiet operation in retail stores or supermarkets due to the reduction in the usual drive and lift noise.

Safety

Best conditions for working safely

Whether in confined spaces or in the middle of the store with bustling public traffic: the EJD 118i offers maximum safety with its very stable handling and best all-round visibility in all work situations

Working safely in confined spaces

- Compact dimensions for work in confined spaces.
- The long safety tiller ensures sufficient distance between operator and truck.

Maximum stability when driving

- The sprung, hydraulically cushioned support wheels – connected via the patented ProTracLink torsion bar – provide optimum distribution of the supporting force depending on the driving situation.
- Ideal for applications on a loading ramp and the loading / unloading of HGVs.

Overview

The right solution for your applications:

Name	Load capacity/load	Lift height (max.)	Travel speed unladen	Aisle width (pallet 800x1200 length)	Lift speed unladen
EJD 118i	1800 kg	1520 mm	6 km/h	2192 mm	0.27 m/s

The German production facilities in Norderstedt, Moosburg and Landsberg are certified as well as our Genuine Parts Center in Kaltenkirchen.
