

Small parts storage static

Shelving

JUNGHEINRICH

Modular racking

with flexible options.

For direct access and lightning-fast conversion and expansion.

If you need to store lots of different small parts, modular racking is the optimum solution. The popular, adaptable all-rounder is used in many industries, especially where access times need to be kept short for manual order picking. The comprehensive range of accessories and the simple components enable tailored adaptation to your storage space and your utilisation requirements. Modular racking is available as boltless racking with great flexibility in the height adjustment of shelving.

JUNGHEINRICH RACKING COMPETENCE

Racking expertise since 1958

Racking is the backbone of your warehouse. We develop tailored solutions for every industry and every demand in order to meet the utmost quality requirements and to grow along with your needs. As a system provider, we are your single point of contact from planning right through to after sales.

JUNGHEINRICH RACKING INSPECTION

Certified quality. Guaranteed

Even when your racking solution is up and running, we continue to ensure quality and safety levels in the warehouse. At your request, one of our 120 certified inspectors will visit your site to perform the annual inspection stipulated by DIN EN 15635. If something is amiss, the original spare parts will be delivered right away.

All benefits at a glance

- Quick access to any item
- Boltless system for easy expansion
- Wide range of accessories for high adaptation capability
- Easy to assemble
- Low investment costs
