

Pallet storage

Wide-aisle multi-bay racking

JUNGHEINRICH

Wide-aisle multi-bay racking

for a wide range of applications.

Direct access and flexible adaptation to every requirement.

Wide-aisle multi-bay racking is the most commonly used racking system. It is ideal for storing large quantities of individual, mainly palletised items. Its strength lies in its versatility: it can hold a great number of containers of various dimensions and weights and can be flexibly configured up to a maximum bay load of 45 t. In comparison with block storage, wide-aisle racking offers the advantages of pressure-free storage and direct access to all pallets. The possibilities are virtually limitless when it comes to height: with automatic operation, the racking can be increased from the standard 8 to 10 metres to more than 20 metres. The easy adjustment of the shelf supports ensures optimum use of your warehouse space. Double-depth storage is also possible. Depending on the goods, loading is with industrial trucks or stacker cranes.

JUNGHEINRICH
RACKING COMPETENCE

Racking expertise since 1958

Racking is the backbone of your warehouse. We develop tailored solutions for every industry and every demand in order to meet the utmost quality requirements and to grow along with your needs. As a system provider, we are your single point of contact from planning right through to after sales.

JUNGHEINRICH
RACKING INSPECTION

Certified quality. Guaranteed

Even when your racking solution is up and running, we continue to ensure quality and safety levels in the warehouse. At your request, one of our 120 certified inspectors will visit your site to perform the annual inspection stipulated by DIN EN 15635. If something is amiss, the original spare parts will be delivered right away.

All benefits at a glance

- Direct access to all items
- Optimum ability to adapt to your needs
- Easy to erect with few components
- Free allocation of storage places
- Achievable with bay loads up to 45 t

The German production facilities in Norderstedt, Moosburg and Landsberg are certified as well as our Genuine Parts Center in Kaltenkirchen.
