

From analogue

to digital.

Jungheinrich WMS Series 2.

The simple solution for professional warehouse management.

Move your warehouse operations into the digital future and switch from analogue to digital right now. The Jungheinrich WMS Series 2 is the simple solution for professional warehouse management that lets you manage small or medium-sized warehouses more efficiently, simply and cost-effectively than ever before – with tried-and-tested, standardised processes and

functions. Discover a software package that holds great promise for you. Benefit from optimised material flows, high productivity, low error rates and permanent delivery readiness – plus high warehouse transparency. Moreover, the Jungheinrich WMS Series 2 is forwards-compatible and can be extended or updated at any time.

Jungheinrich WMS Series 2

Basic module

Use these tried-and-tested, standardised processes and functions for efficient and cost-effective warehouse management.

Basic module

- Storage mapping
- Goods-in and Goods-out
- Inventory
- Master data
- Control center
- Host interface

Optional modules

Benefit from the flexible adaptability to your needs. For example, use different sets of modules depending on your industry.

Jungheinrich WMS

As required, upgrade the WMS Series 2 to the comprehensive Warehouse Management System tailored to your needs: Jungheinrich WMS.

Simple.
Efficient.
Cost-effective.

The Jungheinrich WMS Series 2 basic module delivers tried-and-tested, standardised processes and functions so you can manage your warehouse more efficiently, simply and cost-effectively than ever before. The system maps your warehouse structure to make it easy to trace, stocked and ordered goods. You can use all processes efficiently – from incoming goods and storage and retrieval to order picking and outgoing goods.

MORE TRANSPARENCY IN YOUR WAREHOUSE MANAGEMENT

VARIABLE EXTENSIONS

Simply
extend as
needed.

With its numerous supplementary modules, the Jungheinrich WMS Series 2 adapts to your specific needs. From client management via automatic delivery receipts and quality inspections to returned goods. And as your business grows, the Jungheinrich WMS Series 2 simply grows with you – to the entire, customised Warehouse Management System, the Jungheinrich WMS.

Simply
fit for the
future.

Update successful

TOMORROW'S SOLUTIONS TODAY
