### Star 1: Safety

All Jungheinrich JUNGSTARS leaving our refurbishment centre meet the latest standards of appropriate safety regulations.

### Star 2: Technology

Only when all technical components of a forklift truck are fully functionable can the machine operate at its optimum capacity. Therefore we go into the minutest technical detail when systematically refurbishing all of our forklift trucks.

### Star 3: Appearance

After rigorous deep cleaning and professional detailed repainting of the vehicles and their components, even experts find it hard to tell the difference between Jungheinrich JUNGSTARS and brand-new forklift trucks.

### Star 4: Reliability

We are the only company in our industry to provide a full disassembly of the vehicle including exchange or refurbishment of every technical, mechanical and hydraulic component. You will not find a more reliable used forklift than a Jungheinrich JUNGSTAR - this can drastically reduce downtime and follow-up costs for you and your business.

### Star 5: Sustainability

Our refurbishment of used forklifts significantly reduces consumption of resources and energy. Compared to the production of a brand-new truck 80% of CO<sub>2</sub> is saved. Moreover, we guarantee a professional and environmentally-friendly disposal of operating fluids and any vehicles that are no longer fit for purpose.
