All benefits at a glance

- Perfect accessories for all manner of applications
- Safe working environment thanks to optimum warehouse and truck equipment
- Cost savings due to a reduction in material damage
- Enhanced productivity due to improved workflows
- Compliance with legal regulations

Efficient. Safe. Reliable.

Your Jungheinrich original accessories.

Reliability

Solutions as versatile as your business.

Only with regular care and maintenance can you safeguard the functionality of your forklift trucks in the long term. Our range of original accessories includes the perfect products for your needs – from surface cleaners to ion exchangers.

Professional truck care:

- Jungheinrich offers a wide range of premium care products, including everything from lubricant spray and gear grease to glass and surface cleaners.

Extension of battery service life:

- Our Jungheinrich ion exchanger is the perfect way to maximise battery service life.
- Demineralised water from the ion exchanger safeguards the performance of your truck batteries in the long term.

Safety

Best preconditions for working safely.

Mitigate potential risks in your warehouse: Useful accessories such as warning signs and markings provide effective protection for your employees while performing their daily activities.

Maximum protection in the warehouse:

- Optimum protection for your trucks, goods and warehouse environment with impact protection accessories for effective shock absorption and marking of danger spots.
- Enhanced safety levels in your warehouse with the attachment of easily visible warning lights to your trucks.

Perfect all-round visibility for your operators:

- High-quality panoramic mirrors provide a clear and comprehensive all-round view, thus effectively preventing accidents.

Efficiency

Maximum performance with the most efficient equipment.

For the utmost precision and maximum productivity: Boost the operational readiness of your trucks with innovative attachment solutions, smart assistance systems and sophisticated sensor technology.

Professional weighing and manoeuvring

- Significant efficiency boosts during goods transport and when determining shipping weights using the wireless iForks weighing system.
- Targeted pallet approach and high-precision positioning during product retrieval by means of laser-guided forks.

Versatile assistance systems

- Individual after-sales camera systems provide a perfect view of pallets, racks, goods and travel routes for faster and more accurate storage and retrieval.
