**JUNGHEINRICH**

# Fast, clean and predictable.

## Professional oil changes with the Jungheinrich Hydraulic Oil Service.

Ensure increased security in your warehouse with our flexible and cost-transparent Hydraulic Oil Service. Benefit from a professional annual oil change to ensure the long life and reliability of your trucks.

Our specially trained Jungheinrich Oil Service experts perform the oil change and also take care of the environmentally friendly disposal of your hydraulic oil. Since hydraulic oil is exposed to high pressure and high temperatures in forklift operation, a regular oil change is recommended.

In addition to used oil extraction and disposal, the Jungheinrich Hydraulic Oil Service also performs tank cleaning, system rinsing and filling, as well as filter changes, machine maintenance and prevention in the event of wear – a comprehensive service for the long-term maintenance of your operational safety.

### Service and Support all from one provider

#### Service and Support all from one provider.

Worldwide standards in service quality, short distances to the customer and Jungheinrich employees who do everything they can to keep your truck fleet running smoothly. So you can fully concentrate on your core business.

### Original spare parts & Accessories

#### Original spare parts & Accessories.
