

## Ameise PTE 1.3 Li-Ion

Electric pedestrian pallet truck (1,300 kg)

# PTE 1.3 Li-Ion

## The reliable mid-range pallet truck.

**For highest productivity in pallet transport.**

The versatile and practical Ameise® PTE 1.3 pallet trucks are optimal low-cost entry-level models in the electric pallet truck segment. Thanks to their fully-electric drive and lift function, they are ideal for loading and unloading lorries in warehouses and stores and also work great as a truck-carrying device.

Lithium-ion technology combined with a compact design and extremely low tare weight guarantee maximum efficiency in pallet transport. Especially in confined areas and weight-sensitive environments the Ameise® convinces with its small turning circle.

The 48 Volt lithium-ion battery guarantees sustained performance and highest availability, while the boost and opportunity charging function promises a further increase in performance. Simple and intuitive handling make the pallet truck an indispensable helper.

## Your benefits at a glance

- Solid middle class vehicle for fully-electric pallet transport.
- Ideal for loading and unloading trucks and as truck-carrying device.
- 48 Volt lithium-ion battery with external charger.
- Quick battery change for highest availability and flexibility.
- Reliable support from Jungheinrich service.

## Your Ameise truck for maximum customer benefit.

### Affordable

**Best performance at a low price**

- 48 Volt lithium-ion battery with integrated LED charge level display.
- Additional battery for extended operating times and multi-shift operation.
- Quick and uncomplicated battery change thanks to plug-in system.
- High cost efficiency through longer life cycles and maintenance-free operation.
- Maximum availability and extremely short charging times.
- Efficient charging processes without expensive charging infrastructure.

### Reliable

**Robust quality for various applications.**

- Good traction of the single load wheels for safe indoor and outdoor use.
- CAN-Bus troubleshooting to ensure undisturbed vehicle operation.
- Optimum protection against dust and moisture through IP 54 housing.
- Easy handling due to the ergonomic control element suitable for left- and right-handed users.
- Reinforced brake system for more safety in sloping positions and when working on ramps.

### Comfortable

**Maximum ease of use for every application.**

- Open design for easy access to all vehicle components.
- Tiller arm optimally adapted to the operator with clear colour coding and wear-free button symbols for intuitive operation.
- Magnetic lock instead of key.
- Fast and uncomplicated delivery of spare parts in case of need.
- Support by the Jungheinrich customer service with more than 3.000 service technicians worldwide.

# Overview

Always the best choice.

Name	Load capacity/load	Travel speed	Aisle width (pallet 800x1200 length)	Lift speed unladen
PTE 1.3 Li-Ion (550mm)	1.300 kg	5 km/h	1.995 mm	0.03 m/s
PTE 1.3 Li-Ion (550mm)	1.300 kg	5 km/h	2.095 mm	0.03 m/s
PTE 1.3 Li-Ion (685mm)	1.300 kg	5 km/h	1.995 mm	0.03 m/s
PTE 1.3 Li-Ion (685mm)	1.300 kg	5 km/h	2.095 mm	0.03 m/s

Jungheinrich fork lift trucks meet
