

Ameise FTD 1.8/2.5/3.0

Diesel forklift truck (1,750 / 2,500 / 3,000 kg)

Affordable forklift trucks, delivering reliable and cost-effective handling.

The solution for applications across many industries.

The Ameise counterbalance forklift trucks are affordable, deliver reliable and cost-effective handling solutions for applications across many industries, particularly where users require equipment without advanced functionality or attachments. The ergonomically designed operator compartment, with familiar automotive layouts ensure comfortable working environment and a reduction of fatigue during handling operations.

All Ameise products are designed to be easy to operate and maintain. The use of qualitative, robust components help contribute to reliable operation and lower wear and tear.

Your benefits at a glance

- Imported Nissan K21 / K25 LPG engine deliver clean energy solution and strong driving force.
- All the driving and steering units are independent research and development to maximum the matching attribute and availability.
- Standard full-suspension seat can be easily adjusted according to different operator for maximum comfort.
- High hydraulic system pressure to increase the productivity.
- Lowering and lifting speed suppressing system can decrease noise and protect the load and forks.

Your Ameise truck for maximum customer benefit.

Affordable

Good performance with a lower price.

- Rugged engine from Nissan -tried and tested throughout the world
- Thanks to the simplicity of the components and specification, servicing can be carried out quickly and easily
- Proven industrial engines, high torque at low speed
- Big aluminum cooler provides high cooling performance

Comfortable

Designed for operator comfort.

- Possibility to board the vehicle on both sides
- Small diameter steering wheel reduces driver's left shoulder's fatigue and makes driving more ergonomic (comfortable)
- Familiar automotive layout ensures an intuitive operator cabin and reduces the risk of fatigue during handling operation
- Make the operator get wider and better visibility through creative and optimal design for the box iron, cylinders, chain of mast

Reliable

Quality robust components that you can trust.

- Rugged engine from Kubota (CPCD) /Nissan (CPYD) - tried and tested throughout the world
- Thanks to the simplicity of the components and specification, servicing can be carried out quickly and easily
- Big aluminum cooler provide high cooling performance
- Lowering and lifting speed suppressing system can decrease noise and protect the load and forks

Overview

Always the best choice.

Name	Load capacity/load	Travel speed unladen	Aisle width (pallet 800x1200 length)	Lift speed unladen
FTD 1.8 (300 ZT)	1750 kg	18 km/h	3793 mm	0.65 m/s
FTD 1.8 (470 DZ)	1750 kg	18 km/h	3793 mm	0.65 m/s
FTD 2.5 (300 ZT)	2500 kg	18 km/h	4115 mm	0.58 m/s
FTD 2.5 (400 ZT)	2500 kg	18 km/h	4115 mm	0.58 m/s
FTD 2.5 (470 DZ)	2500 kg	18 km/h	4115 mm	0.58 m/s
FTD 3.0 (300 ZT)	3000 kg	17 km/h	4280 mm	0.46 m/s
FTD 3.0 (400 ZT)	3000 kg	17 km/h	4280 mm	0.46 m/s
FTD 3.0 (435 DZ)	3000 kg	17 km/h	4280 mm	0.46 m/s
